### **Inclement Weather Policy:**

For the safety of our staff and patrons, West Union Community Library will close, delay opening or close ahead of schedule when the weather becomes hazardous to the health and/or safety of the public and/or library staff.

The director or librarian on duty has the discretion to modify library operational hours for hazardous weather conditions. During weather advisories, library personnel will monitor weather conditions and will close the library building if weather becomes too severe.

Every effort will be made to post closure announcements with local media outlets.
